Kirti Bhardwaj

EXPERIENCE

Walmart Labs, Bangalore – *Software Engineer III*

JAN 2019 – August 2019

Used react, redux, electrode and hapi.js to build the Fitment widget for Walmart.com raising the **ATC** for auto parts by **7%**.

Played an integral role in getting the widget to work on product and search pages and mentored other developers to be an effective part of the team.

Worked on automating the Registry backend for the Walmart.com including cache implementation and integrating with cloud configuration management.

Radiolocus, Mumbai and Bangalore – *Frontend Developer*

MAY 2015 – SEPTEMBER 2018

Lead frontend team while playing a role at the intersection of engineering and product. Gained experience in customer centric approach to solving issues related to **navigation, user path**, data analytics and telling a story through data so as to enable users to make informed decisions.

EatAds, New Delhi – *Web Engineer*

NOVEMBER 2014 – APRIL 2015

Worked with a small team of six engineers to build a web and mobile app for outdoor media:

Twyst, Gurgaon – *Developer*

JULY 2014 – NOVEMBER 2014

Worked with a small team of four developers to build the web platform of the hyperlocal startup Twyst including location based discovery and a reward system.

GetFitGo, Mumbai – *Senior Web Developer*

APRIL 2014 – JUNE 2014

Worked with a team of three engineers to develop a social network for fitness enthusiasts with features including friend recommendation, communities, automated sync with fitbit and other devices as well utilities for windows and mac.

PROJECTS

GET JUGAAD

As a part of Lean Startup Initiative by Steve Blank worked on a ridesharing app and platform targeting customers in India. Team was selected as the official startup from India giving us an opportunity to pitch to investors in Silicon Valley.

Major responsibilities included:

- Community Building
- Customer Onboarding and New Customer Acquisition

ADVENTURE TRIPR

Worked on building the supplier frontend for trip organizers with React and Redux and StoryBook.
